Serial No.: 09/994,087 U.S. PTO Customer No. 25280

Inventor(s): Strength et al. Case No.: 5370

2. (Original) The camouflage material according to Claim 1, wherein the camouflage pattern includes images of objects.

- 3. (Currently Amended) The camouflage material according to Claim 2, wherein the images of the object in the camouflage pattern comprise items selected from the group consisting of: tree trunks, branches, [twigs,] leaves, twigs, rocks, weeds, and grass.
- 4. (Original) The camouflage material according to Claim 1, wherein the base textile and coating have a transmission rate of about 60 μ A or less of the 380 μ A light source.
- 5. (Original) The camouflage material according to Claim 1, wherein the coating comprises about 2% or more of the carbon black in the total weight of the coating.
- 6. (Original) The camouflage material according to Claim 1, wherein the base textile and the coating have a weight of about 5 oz/yd² or less.
- 7. (Cancelled) A camouflage material comprising a base textile having a camouflage pattern on a first side and a coating on a second side, the coating comprising a thermoplastic material and pigment such that the base textile and the coating have a visible light transmission of about 100 μ A or less of a 380 μ A light source.

Serial No.: 09/994,087 U.S. PTO Customer No. 25280

Inventor(s): Strength et al. Case No.: 5370

8. (Cancelled) The camouflage material according to Claim 7, wherein the

camouflage pattern includes images of objects.

9. (Cancelled) The camouflage material according to Claim 8, wherein the images

of the object in the camouflage pattern comprise items selected from the group

consisting of: tree trunks, branches, twigs, leaves, twigs, rocks, weeds, and grass.

10. (Cancelled) The camouflage material according to Claim 7, wherein the base

textile and coating have a transmission rate of about 60 µA or less of the 380 µA light

source.

11. (Cancelled) The camouflage material according to Claim 7, wherein the base

textile and the coating have a weight of about 5 oz/yd² or less.

12. (Cancelled) The camouflage material according to Claim 7, wherein the base

textile comprises textured yarns.

13. (Cancelled) The camouflage material according to Claim 7, wherein the base

textile comprises a woven material.

14. (Cancelled) The camouflage material according to Claim 13, wherein the woven

material comprises yarns of polyester.

Serial No.: 09/994,087 U.S. PTO Customer No. 25280

Inventor(s): Strength et al. Case No.: 5370

15. (Cancelled) The camouflage material according to Claim 14, wherein the yarns

of polyester are textured polyester yarns.

16. (Cancelled) The camouflage material according to Claim 7, wherein the

pigment comprises carbon black.

17. (Cancelled) The camouflage material according to Claim 7, wherein the

thermoplastic material comprises ethylene methyl acrylate.

18. (Cancelled) A camouflage material comprising a base textile having a

camouflage pattern on a first side and a coating on a second side, the coating

comprising a thermoplastic material such that the base textile and the coating have a

visible light transmission of about 100 μA or less of a 380 μA light source.

19. (Cancelled) The camouflage material according to Claim 18, wherein the

camouflage pattern includes images of objects.

20. (Cancelled) The camouflage material according to Claim 19, wherein the

images of the object in the camouflage pattern comprise items selected from the group

consisting of: tree trunks, branches, twigs, leaves, twigs, rocks, weeds, and grass.

21. (Cancelled) The camouflage material according to Claim 18, wherein the base

textile and coating have a transmission rate of about 60 μA or less of the 380 μA light source.

- 22. (Cancelled) The camouflage material according to Claim 18, wherein the base textile and the coating have a weight of about 5 oz/yd² or less.
- 23. (Cancelled) The camouflage material according to Claim 18, wherein the base textile comprises textured yarns.
- 24. (Cancelled) The camouflage material according to Claim 18, wherein the base textile comprises a woven material.
